Hands-on Infrastructure Automation with Terraform on AWS

Alexander Savchuk

Creating reusable components with modules

Section 5

Introducing modules

Modules

Self-contained packages of Terraform configurations that are managed as a group.

- **Modules introduction**
- Create the first module
- Extend modules with conditionals and outputs
- Use external modules

Section overview

- Modules introduction
- **Create the first module**
- Extend modules with conditionals and outputs
- Use external modules
